Graduate School
Department of Chemical Engineering
INVITES POTENTIAL STUDENTS TO APPLY

Scholarship and Full Tuition Waiver for Outstanding Students!
Your future, we invest!
Our overseas graduates: 100% employment in Taiwan and in Asian countries.

Challenging Researches
We focus on innovations and developments in advanced technologies and researches:
• Nanotechnology, Nanomaterials
• Green Energy, Fuel Cell Technology
• Surface and Material Science
• Microelectronics
• Bioengineering, Biomaterials
• Genetic Engineering

Stimulating Curriculum
We design a curriculum which provides exciting careers in fields such as:
• Chemical Engineering Kinetics
• Advanced Process design and control
• Chemical Engineering Thermodynamics
• Tissue Engineering and Thin Film Engineering
• Advanced Organic, Inorganic, Analytical Chemistry
• Transport Phenomena
• Environmental Engineering

Scholarship and Full Tuition Waiver for Outstanding Students!
If you are interested in applying, Please visit the our website for further information
